PROJECT PROPOSAL

MAJOR MOTION PICTURE INVESTMENT

PROJECT PROPOSAL

- Mutual interest in movies and film as entertainment, as well as a future career path
- Dataset: [Top 10 Highest Grossing Films \(1975-2018\)](#)
[\(kaggle.com\)](#)

WHAT KIND OF MOVIE TO MAKE AND WHICH STUDIO TO PARTNER WITH IN ORDER MAKE THE MOST MONEY?

Film Attributes:

- Does an animated or live-action movie generate more worldwide gross income?
- What MPAA rating hits the “sweet spot” for attracting the largest audiences?
- What genre and / or sub-genres should we target?
- Does the length of a movie matter to the overall gross income?

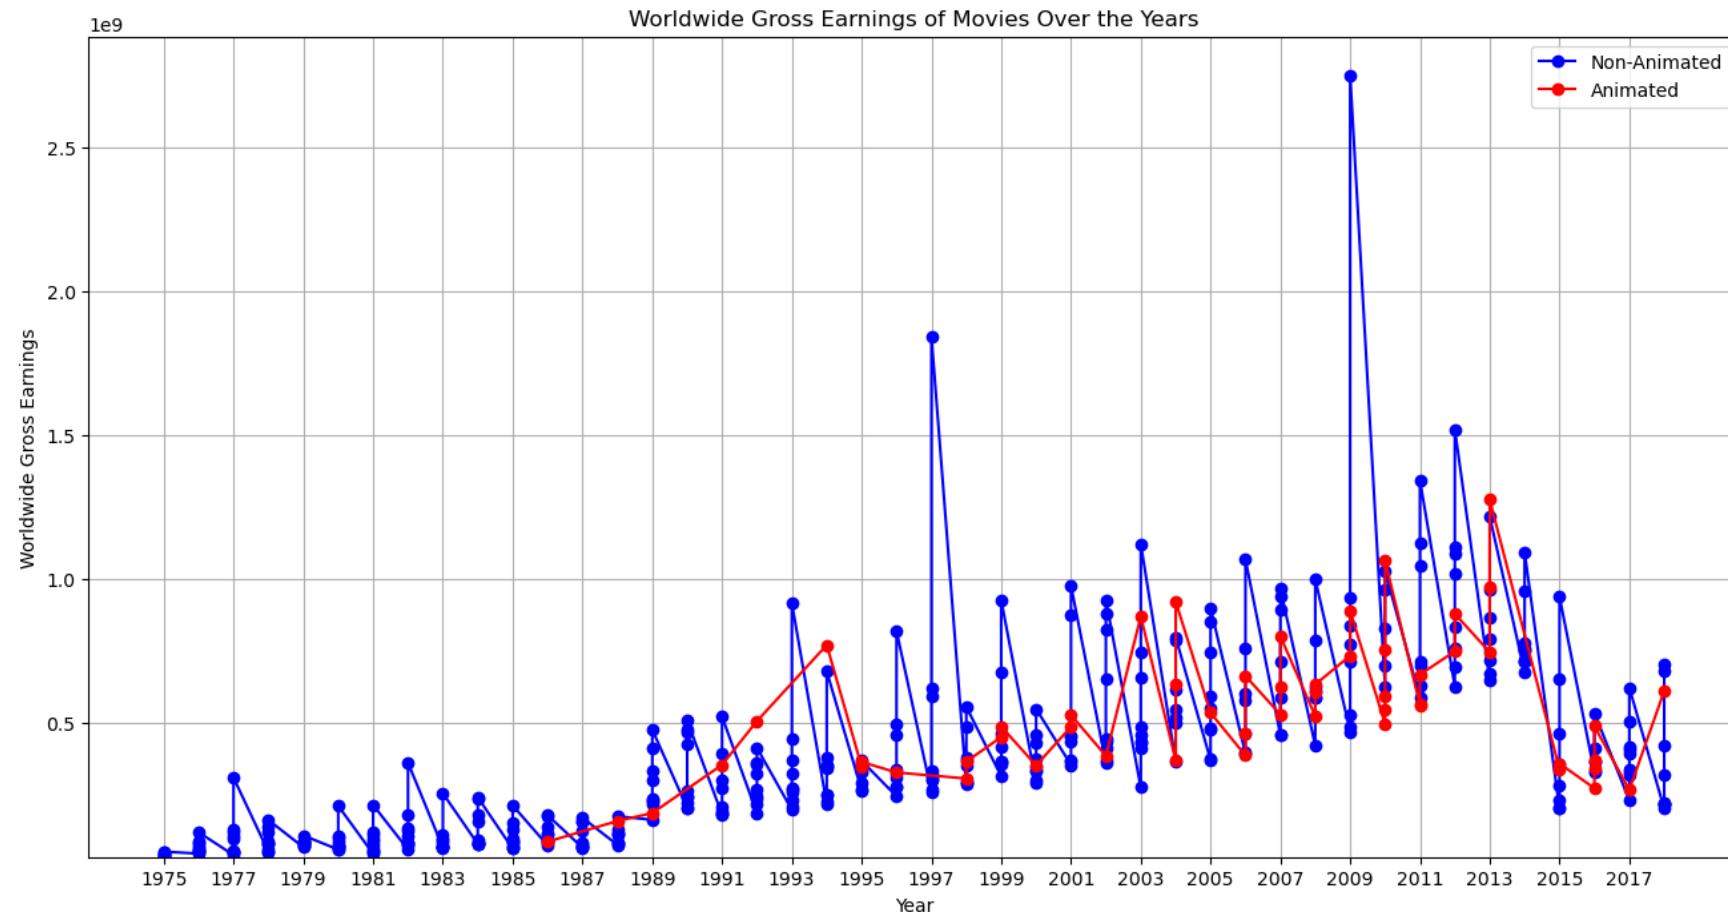

Studio / Distributor Attributes:

- Do certain production companies focus primarily on specific genres?
- On average, which studios tend to generate higher gross income at the box office?
- Which distributors tend to put out higher quality films?
- Is there correlation between the IMDb rating of a movie and the gross income?

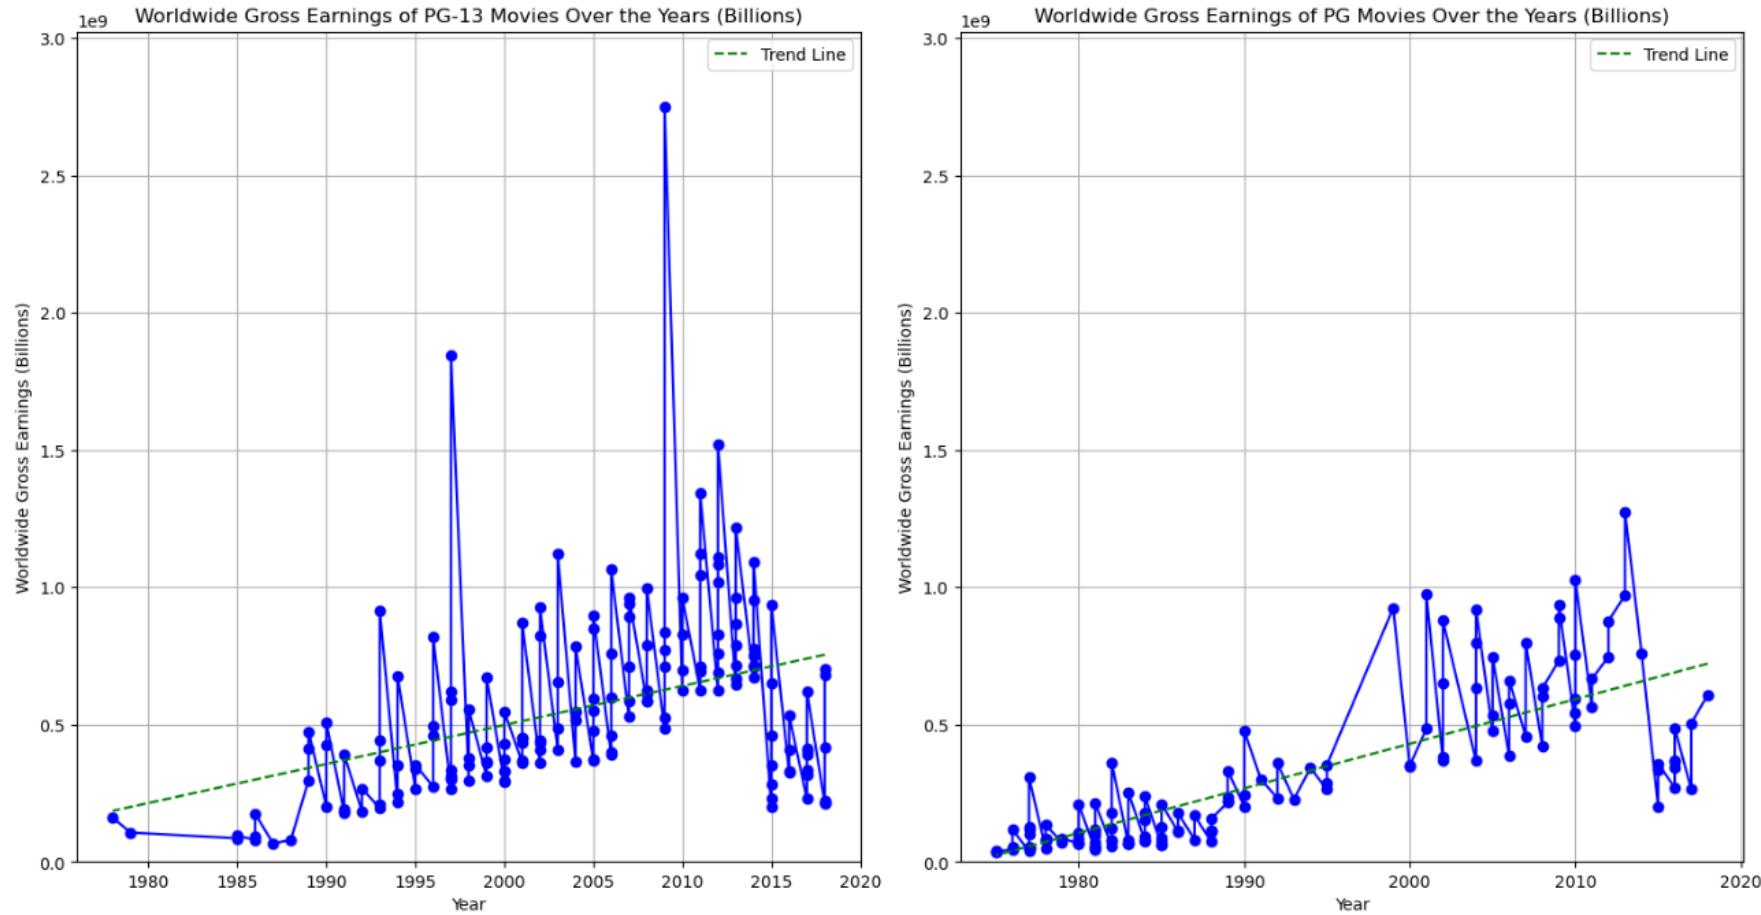

DATA ANALYSIS

MAJOR MOTION PICTURE INVESTMENT

WHAT TYPE OF FILM SHOULD WE MAKE? ANIMATED VS. NON-ANIMATED

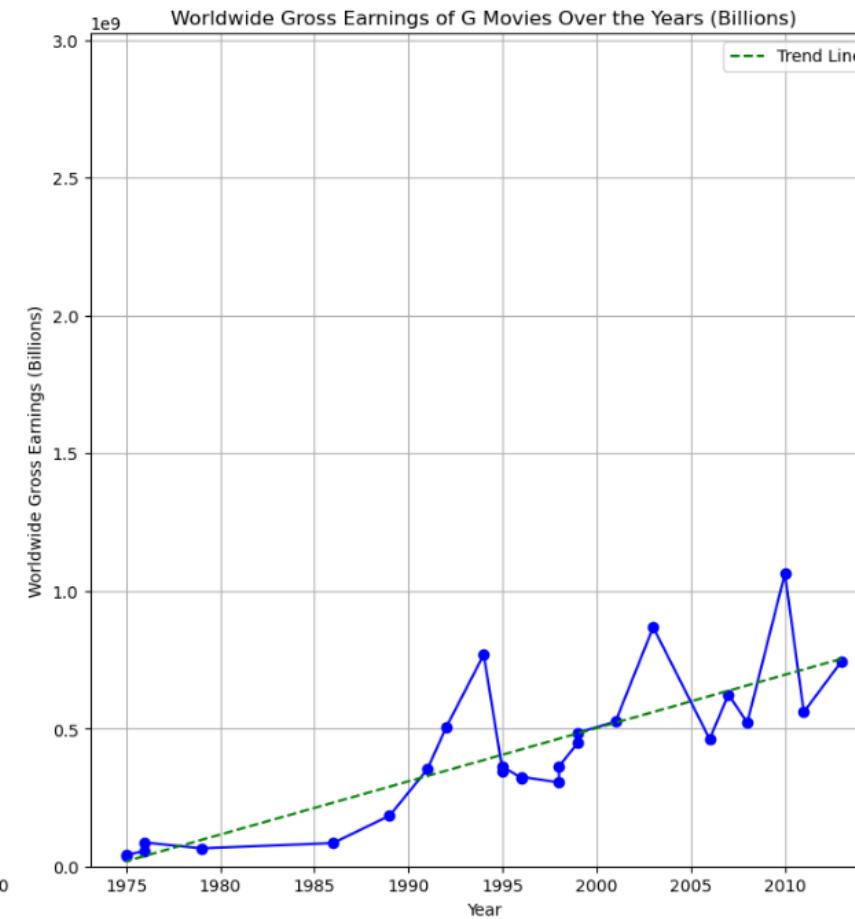

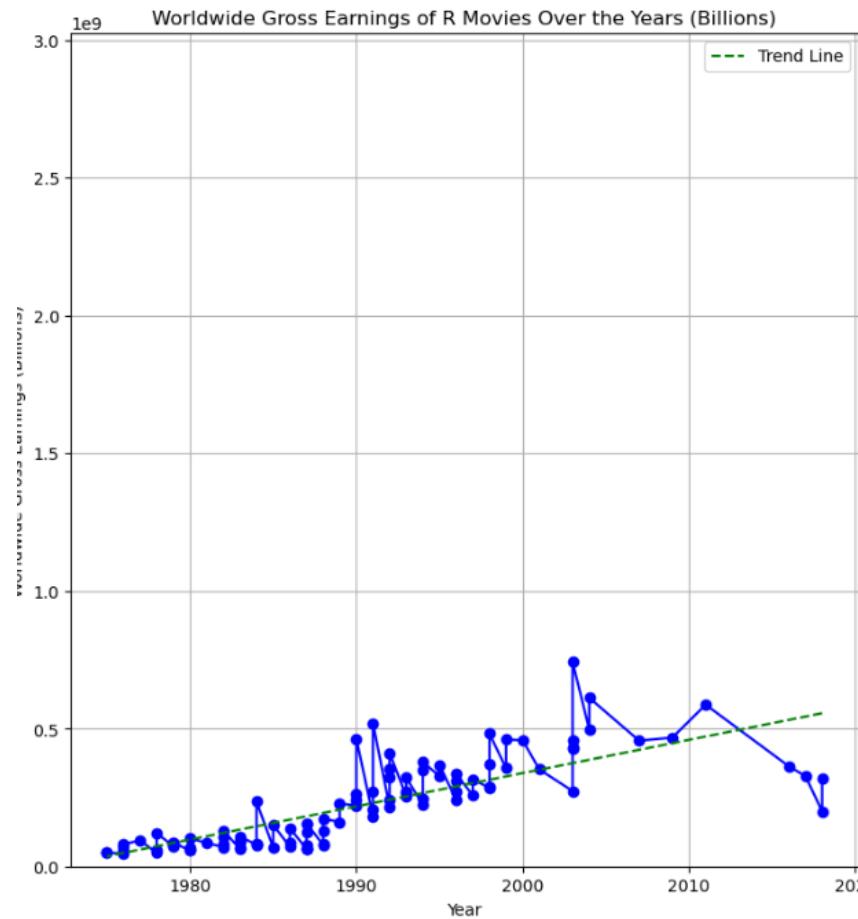

WHAT MPAA RATING SHOULD WE TARGET? PG-13 & PG

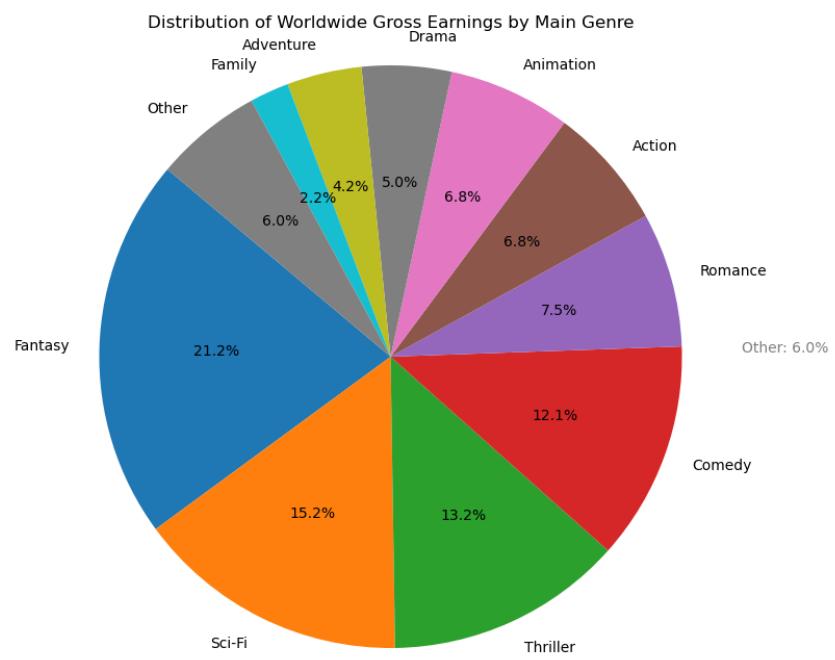

WHAT MPAA RATING SHOULD WE TARGET?

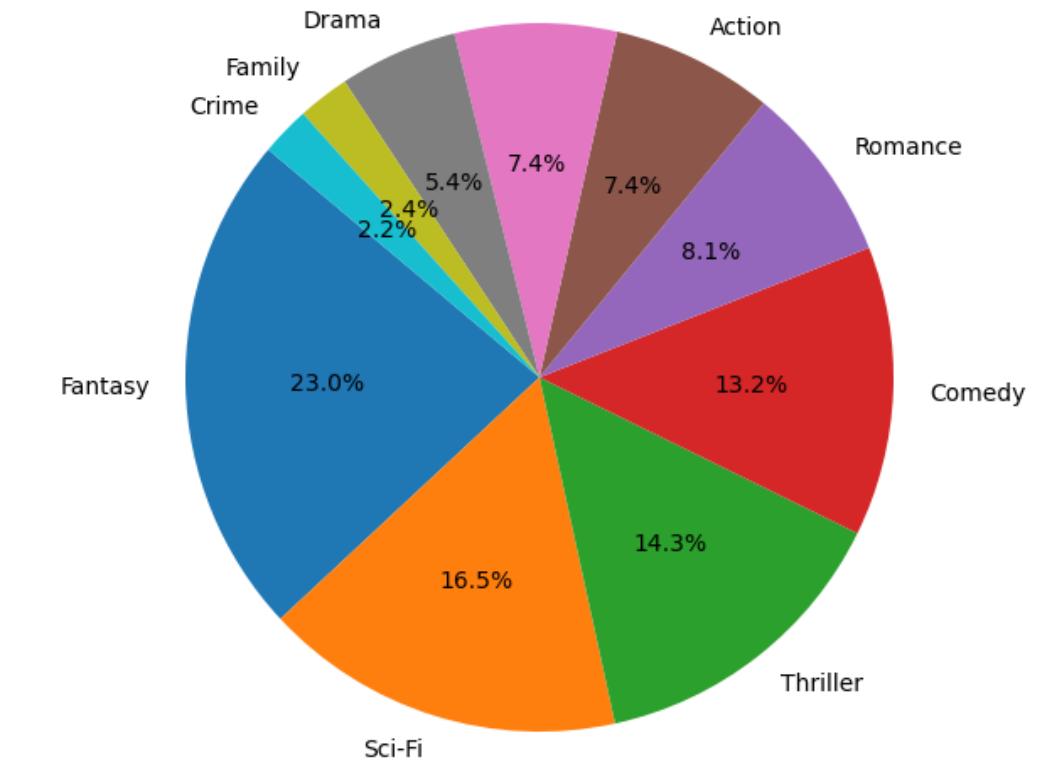

R & G

WHICH GENRES HAVE HIGHEST WORLDWIDE GROSS?

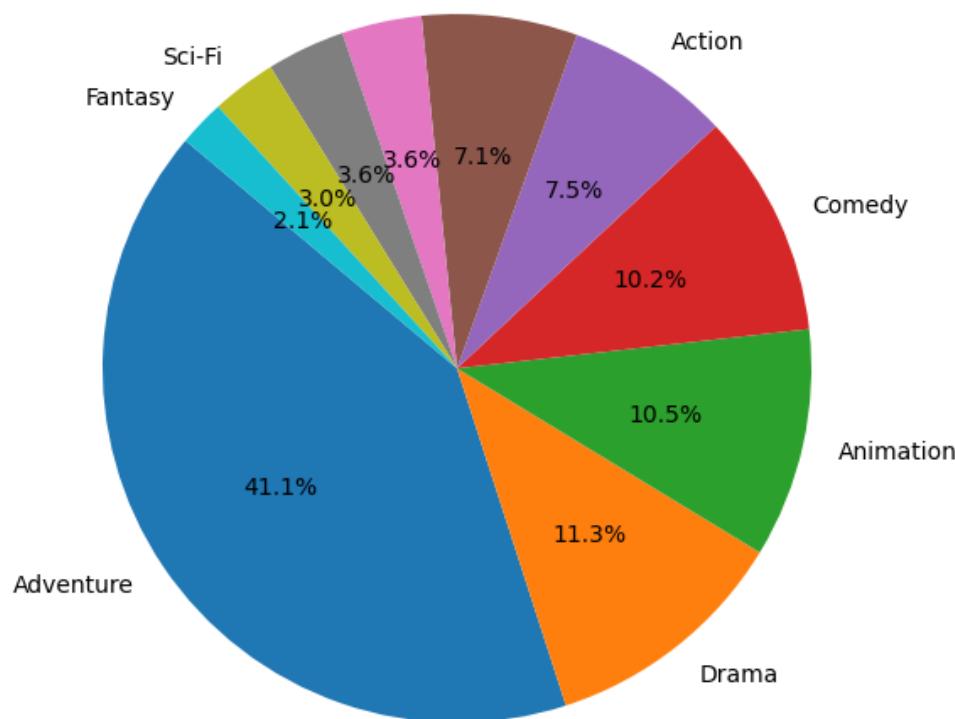

Distribution of Worldwide Gross Earnings by Top 10 Genres in Main_Genre
Animation

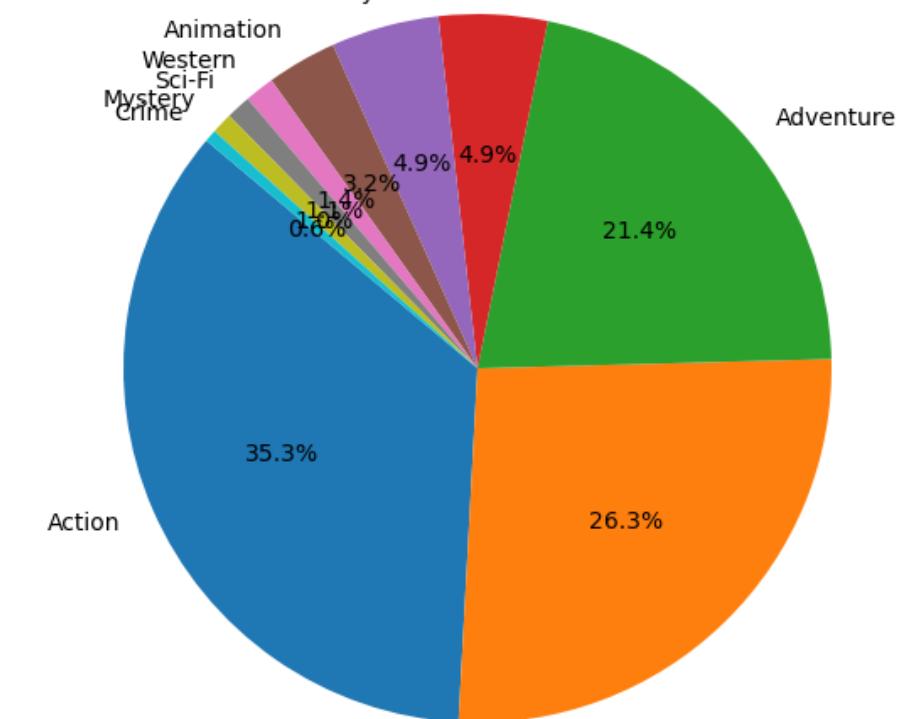

WHICH GENRES HAVE HIGHEST WORLDWIDE GROSS?

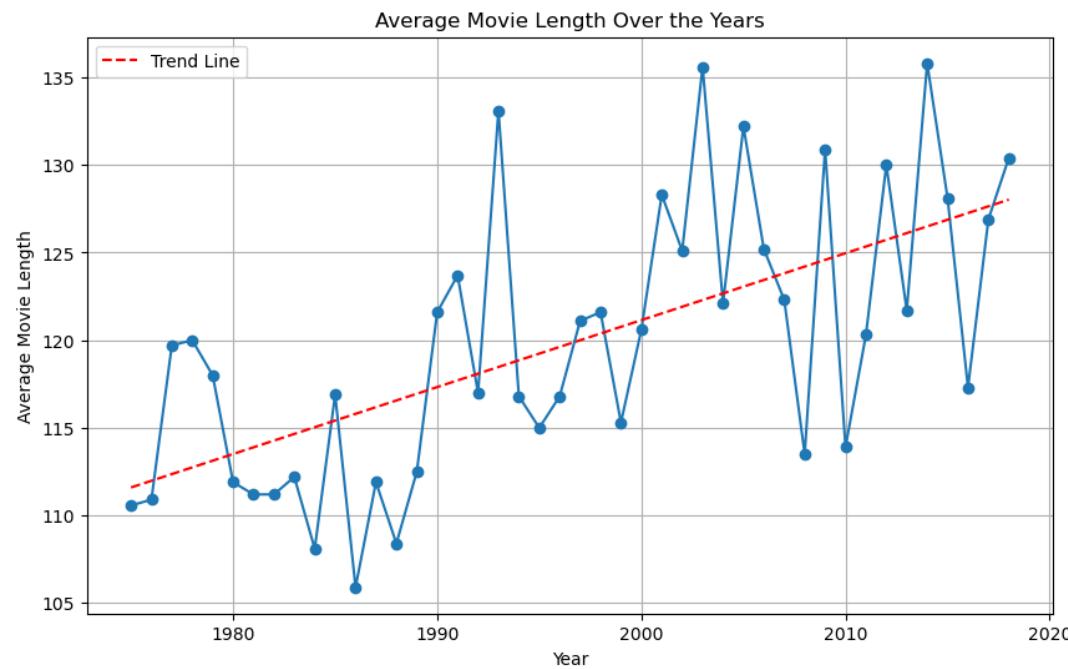

Distribution of Worldwide Gross Earnings by Top 10 Genres in Genre_2

Distribution of Worldwide Gross Earnings by Top 10 Genres in Genre_3

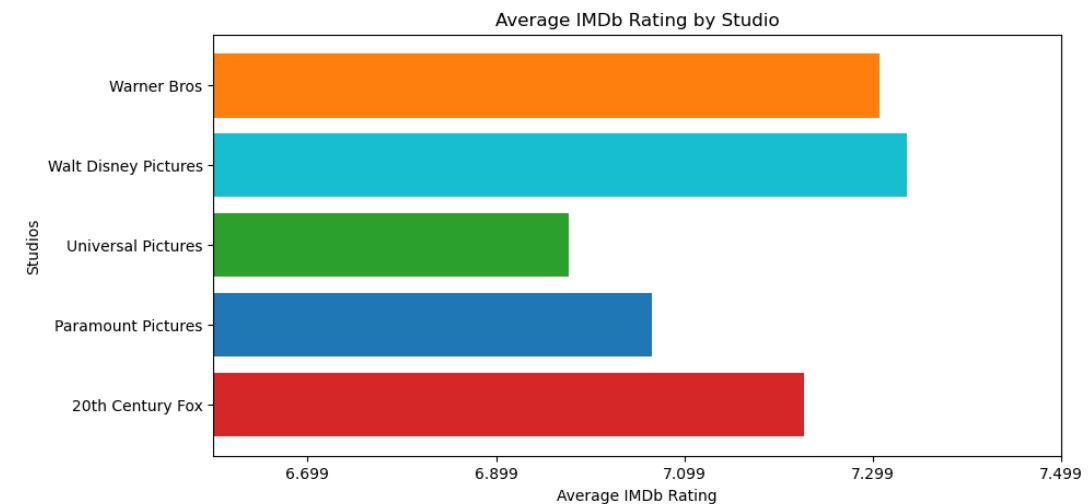

DOES THE LENGTH OF THE MOVIE MATTER?

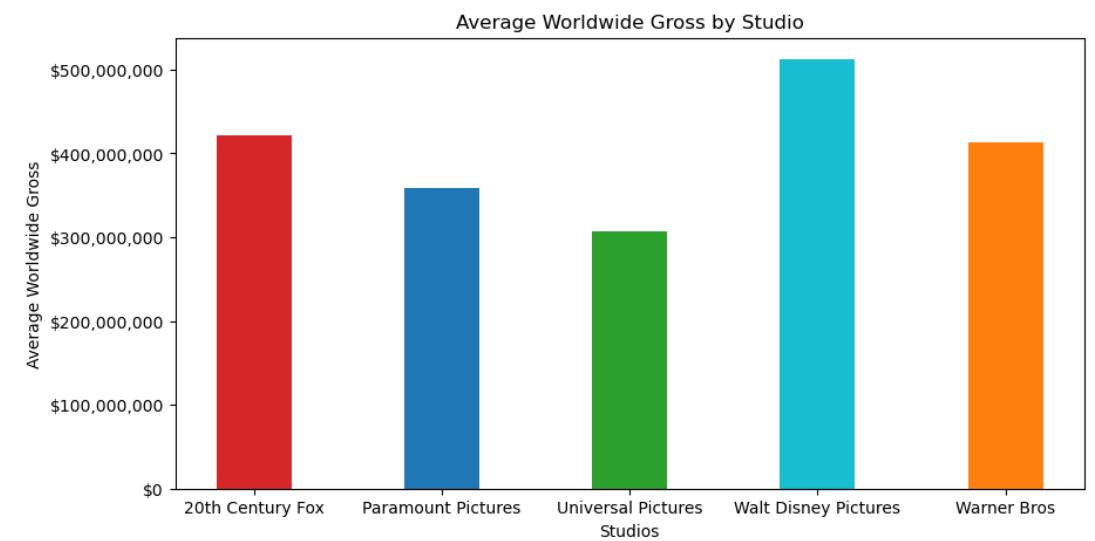

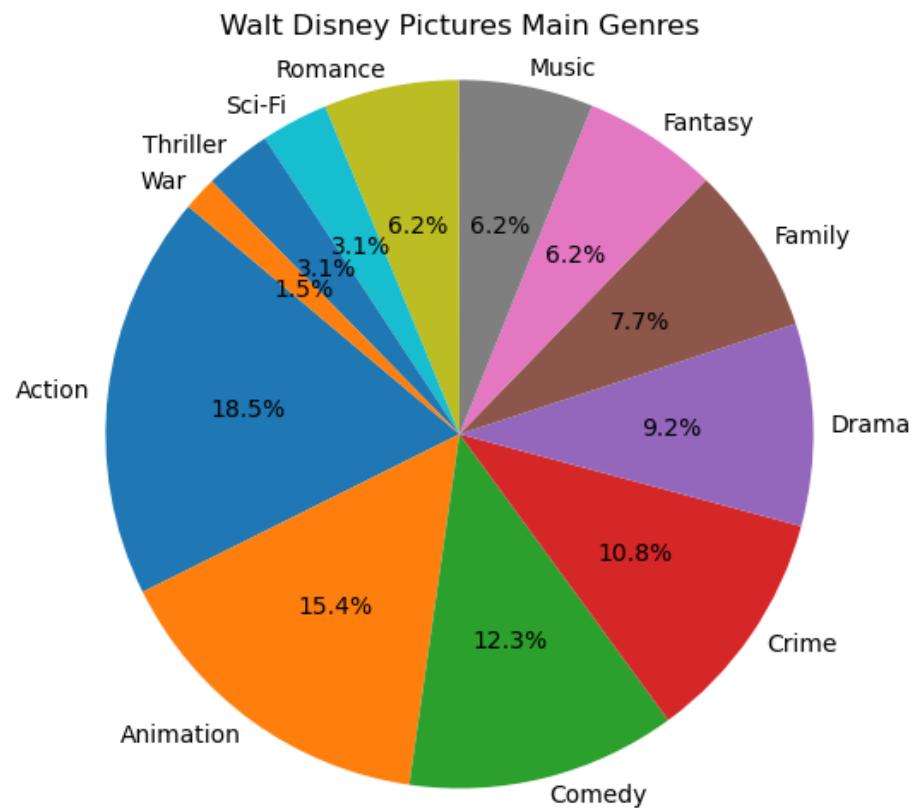

DOES THE IMDB RATING OF THE MOVIE MATTER?

Test	Correlation	P-Value
Pearson's R	0.2882	2.0202×10^{-7}
Spearman's Rho	0.2682	1.4143×10^{-6}
Kendall's Tau	0.1864	1.2721×10^{-6}

WHICH STUDIO SHOULD DISTRIBUTE THE FILM?

WHICH STUDIOS TEND TO EARN THE MOST MONEY?

STUDIO	MEAN	MIN	MAX
20 th Century Fox	\$422m	\$51m	\$2,749m

OUR FILM CHARACTERISTICS

TYPE	Live Action
GENRES	Sci-Fi, Action, Adventure
RATING	PG-13
STUDIO	Walt Disney Pictures
LENGTH	120-200

FINAL COMMENTS & TAKEAWAYS

MAJOR MOTION PICTURE INVESTMENT

ADDITIONAL DATASET CONSIDERATIONS

- The dataset we used focuses on the annual Top 10 Worldwide Grossing movies:
 - By focusing on just the “winners” we might be introducing bias in the data
 - Further analysis should include all films, regardless of gross
- Gross vs. Net Income
 - A better metric for an investment decision would be to also include budget and other expenses in the analysis
- Worldwide Gross figures in the dataset are not inflation-adjusted:
 - Comparison of prior years is difficult
- Incorporating additional attributes:
 - Release Date
 - Geographic Breakdown
 - Director / Actors
- Additional statistical measurements

THANK YOU
